About Us

Founded in 2013, Camtech Diagnostics has built significant R&D and manufacturing capabilities to support the development of novel lab-based and point-of-care diagnostic tests. As an integrated diagnostics provider, we continuously invest in innovation to meet evolving market needs and deliver best-in-class solutions for our partners. We are active in major markets, and have R&D, manufacturing, regulatory and distribution presence across Asia and Europe (UK and Germany).

Our Services

01 Regulatory Services

- ✓ SAC & UKAS EN ISO 13485 certified partner with extensive experience in IVD regulatory submissions
- ✓ Proven track record in registering diagnostic products with Singapore's Health Sciences Authority (HSA), South East Asia and CE Regulatory Approvals
- ✓ Consultancy and guidance through compliance, documentation, and approvals for a smooth market entry

02 Laboratory Validation

- ✓ Preclinical validation of diagnostic kits
- ✓ Comprehensive performance and quality assessments
- ✓ Independent laboratory support to strengthen regulatory submissions and market readiness
- ✓ Launch as LDT

03 Contract Manufacturing

- ✓ Expertise in designing and producing lateral flow test kits and microfluidic devices
- ✓ Flexible, scalable manufacturing tailored to your product needs
- ✓ End-to-end quality control to ensure reliability and performance

04 Commercialization Assistance

- ✓ Market insights and strategies to accelerate adoption in Singapore, Southeast Asia, Europe markets and beyond
- ✓ Consultancy, support and co-commercialisation for distribution, partnerships, and product launch execution
- ✓ Helping transform innovation into market success

Why Choose Camtech?

Local Expertise

Deep understanding of Southeast Asia, UK and Europe IVD and medical device landscape, with localised manufacturing capabilities

Integrated Approach

From regulatory clearance to validation, manufacturing, and commercialization

Trusted Partner

Over a decade of supporting OEMs and innovators in diagnostics
